

HyperNym Strengthens Strategic Partnership With Microsoft | HyperNet IoT Platform Listed on Azure Marketplace

Extending strategic partnership with Microsoft, the HyperNet IoT platform is now successfully listed on Azure Marketplace. Shaping the future of the internet of things, with innovation and partnerships that deliver game-changing business benefits.

Dubai, United Arab Emirates Aug 30, 2022 ([Issuewire.com](https://www.issuewire.com)) - We are delighted to announce that [HyperNym](#), a global leader in providing IoT platforms and applications has strengthened its strategic partnership with Microsoft with the inclusion of the HyperNet IoT platform in the [Azure marketplace](#).

"Microsoft's partnership with HyperNym demonstrates our visions to connect billions of intelligent devices and people in exciting new applications," said Aniq Ur Rehman, IoT Lead, HyperNym. "The global scale of Microsoft helps ensure that HyperNet IoT platform customers rapidly deploy IoT Applications of their choice with speed, agility, and cost competitiveness. This presents a tremendous opportunity for customers to accelerate their journey in the Internet of things, and a tremendous opportunity for HyperNym to expand our go-to-market reach through the co-selling efforts."

In addition to the reliability and scale of Microsoft Azure, customers gain access to the power of IoT technology with HyperNet. The combined capabilities of Azure and HyperNet give users the flexibility to create and deliver intelligent, personalized, and impactful IoT applications.

HyperNet Platform is a cloud-based IoT secure and scalable solution that connects with millions of IoT devices, which become the eyes, ears, and brain of organizations and brings the results for multiple types of organizations, small or large that help in achieving operational efficiency by optimizing

operations and decision making.

The platform helps customers embrace IoT as a core strategy to drive better business outcomes, improve safety and address social issues by predicting and preventing equipment failures, optimizing smart buildings for space utilization and energy management, improving patient outcomes and worker safety, tracking assets across the organization, supply chain, and more.

Businesses are built by the experiences they provide; every day, thousands of those experiences are delivered by HyperNym. We are shaping what's next for the future of the internet of things, with innovation and partnerships that provide game-changing business benefits. Our cloud solutions and applications ecosystem power personalized, intelligent, and effortless customer experiences to help achieve strategic ambitions and desired outcomes. Together, we are committed to helping grow business by delivering impactful and scalable solutions.
