Interview with the World's Oldest Man

*Gilgamesh, who was born more than
3000 years ago, tells our reporter for the
first time, in an exclusive interview, about
the experiences he went through to become
immortal.*

Tallinn, Harju Aug 13, 2022 ([Issuewire.com](https://www.issuewire.com)) - Almost every other person has given a thought about an alternating ending after reading a book or watching a movie. Offering the taste of alternative consequences, Ludo World has come up with its latest game, Mesagisto. This gaming application allows participation as different side characters in the famous stories of Cinderella, Robin Hood, and even historical characters such as Napoleon. While participating in the game, each player can have different virtual friends, and based on their conversations, the stories take a new twist or alternative dimension.

Mesagisto offers an interactive fictional platform to enjoy which can be utilized for critical thinking and disseminating ideas. It is a messenger-like platform that helps to create alternative history based on conversations. Such an amazing gaming application is creating a huge buzz among global users and currently, a prototype is available on Google Play Store and Apple App Store. It is still in progress.

Ludo World has previously captivated global users with its innovative gaming applications such as Filmo, ElRegisseur, and many others. Hailing from Tallinn, Estonia; this agency is looking forward to coming up with more games in the coming days. Visit <https://ludo.world> to know more.

On the [website](#) and on [Google Play](#), a prototype of the game is accessible.

As it solicits comments on the present prototype, Ludo World is currently creating additional characters and tales. To receive the most recent information on the game's development, interested readers may sign up for the company's [newsletter](#).
