

Momprenneur Goes from Earning \$24,000 Employee Salary to Earning \$500k+ in only Fifteen Months in the Tax Industry

Norfolk, Virginia Aug 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - In the world of business, entrepreneurship, and more, the ideas and potentials of many have not been allowed to bloom, perhaps because of their fear, doubt, insecurity, marital status or gender amongst other factors. It takes loads of effort and grit to start a new business, but many lack the steel and passion to bring their dreams to life. In recent years, one thing is becoming more evident - women are refusing to be laid back, they are now expressing their innate possibilities, becoming business owners, and ruling their world.

A notable name and person on the lips of many admirers out there is the revolutionary [Larrima \(Reema\) Davis](#). Having successfully transitioned from being a 9-5 employee to being a CEO, the versatile and multi-talented mompreneur was able to generate an impressive \$500k in a space of fifteen months after starting her own accounting and business firm. Dubbed as [Biz Pro HQ](#), Larrima's company is committed to offering premium business development solutions, as well as providing clients with fresh ideas to help reduce tax liability through proactive planning and skillful income tax preparation.

Suffice it to say that before founding [Biz Pro HQ](#), Larrima was earning a \$24,000 employee salary, working more than 80 hours a week and supplementing the income she was entitled to, yet was not earning with additional side gigs and hobbies. While the world was groaning as a result of the adverse effects of the pandemic, with many businesses folding up, and a large number of employees losing their jobs, Larrima defied the odds and started her business in the middle of a pandemic.

Not only did her business survive and thrive, but it has also grown in leaps and bounds afterward. In less than two (2) years, the business has expanded into 3 unique locations, and they are presently branching off with Biz Pro HQ Alliance - a program that offers the education, training, and business model for upcoming franchisees of Biz Pro HQ. All these laudable feats and more can be traced to the vision, doggedness, creativity, hard work, experience, and professionalism of Ms. Davis.

Speaking excitedly, Larrima said: "I am absolutely delighted about my firm, our involvement in the tax and business industry, the success we have been able to achieve, and the positive feelers and vibes we are getting from clients and partners out there. After assisting my former employer with their fresh new business model, in the effort of keeping the doors open and attracting new clients, all while being a full-time mom. I birthed this idea to help businesses grow, learn and maintain their tax and business needs. Looking back at how we started to where we are now, vis a vis the earnings we've been able to generate in a short period of time, it has indeed been surreal. I am happy, and I know our clients will continue to find satisfaction in our service offerings even as we consolidate plans to replicate the same through the upcoming franchisees."

[Larrima](#) also has recently signed an impressive tv deal. The upcoming series, titled Beating the Odds, will document Larrima's day-to-day as she juggles being a mom and running and expanding her business. The series will follow Larrima as she navigates the challenges of being a working mom and offer viewers an inside look at what it takes to be a successful mompreneur.

Beating the Odds is set to air in early 2024. We can't wait to see what Larrima has in store for us!
