

Natalia Tilki, DO, an Ophthalmologist with Emerald Eye Center Inc.

Get to know Ophthalmologist Dr. Natalia Tilki, who serves patients in Encino, California.

New York City, New York Aug 2, 2022 ([IssueWire.com](https://www.issuewire.com)) - Dr. Tilki is one of the most prominent ophthalmologists in California. Combining her unique European experience with advances in modern American ophthalmology, she sees patients at her private practice, Emerald Eye Center Inc., located in Encino. She specializes in cataract surgery, glaucoma management, pterygium removal with graft, LASIK, PRK, and clear lens exchange.

Furthermore, she has been very successful in the diagnosis and management of diabetic retinopathy and macular degeneration, including laser surgeries and intravitreal injections. Her very special and personal approach to each patient allows her to reach better visual outcomes and significantly improve her patient's quality of life.

Beginning her medical training at the most prestigious universities in Russia, Dr. Tilki completed a Master of Science degree in Biology and Anthropology at Moscow State University and received her medical degree at the Moscow Academy of Medicine. Eventually, she gained invaluable experience while working with the modern-day pioneer in refractive and cataract surgery, Dr. Svyatoslav Fyodorov.

Upon relocating to the United States, she graduated with her Doctor of Osteopathic Medicine degree from the New York College of Osteopathic Medicine and completed her residency in ophthalmology at Midwestern University. In addition, she completed a cornea research fellowship at Louisiana State University, where she conducted numerous research projects and was published in various major American journals.

Ophthalmology is a branch of medicine and surgery, that deals with the diagnosis and treatment of eye disorders. Ophthalmologists are experts in the diseases, functions, and anatomy of the eye. Ophthalmologists are also surgeons. They repair traumatic injuries to the eye and may perform cataract, glaucoma, and corneal surgery.
