

NeoITO Appoints Brian Chapman as President

Salt Lake City, Utah Aug 30, 2022 ([IssueWire.com](https://www.issuewire.com)) - NeoITO has appointed Brian Chapman as the company's President for North America. He was previously the Entrepreneur in Residence at NeoITO. He specialises in product growth and leadership.

"We are excited to have Brian in one of the most strategic positions of the company. He is a versatile leader and his product leadership experience with Amazon and AT&T will help us go to the next big level and expand our footprint in North America", said Faiz MH, CEO of NeoITO.

Before joining NeoITO, Brian worked with AT&T for six years, where he spearheaded marketing. Followed by AT&T, he had another six-year stint at Amazon, managing product and display advertising for the brand.

"I have worked with over a dozen teams and hundreds of developers, onsite, onshore, nearshore, and offshore. I discovered NeoITO when I was looking for a delivery partner for a founder client looking to build their V1 product. I can safely say that no other firm partners as deeply and completely with founders in their journey as NeoITO." Brian wrote in a LinkedIn post announcing his new position.

"I'll continue doing what I love: building products with my founder clients. I am excited to expand and level up what I can offer them with all the business analysis, design, and development services NeoITO brings to the table," he added.

In his new role as the President, Brian will work with founders to help them build software products and oversee NeoITO's operations in North America.

About NeoITO
