The event came to an end with cake-cutting and Mr. Ishan Kumar interacting personally with the artists. “By no means or imagination, is this the ultimate milestone, or the penultimate, or even the 50th result preceding it.”, he said. “For me, Ikarus 3D will only go down as a success story; I won’t pretend that the path we embark on will be smooth or easy from here, I never have. And the truth is that it will take us years of work, and effort to be called successful. We will face hurdles, maybe even failures, we will face challenges, and we will face roadblocks. But I hope by the story I narrated today, it’s clear to you that Ikarus 3D has always come back stronger.” he added.
