

Omar E. Bellorin-Marin, MD, FACS, FASMBS, a Bariatric and General Surgeon

Get to know Bariatric and General Surgeon Dr. Omar E. Bellorin-Marin, who serves patients in New York, New York.

New York City, New York Aug 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - A prominent Bariatric and general surgeon, Dr. Bellorin-Marín is in practice at New York-Presbyterian / Weill Cornell Medical Center. He specializes in advanced GI and minimally invasive surgery, including bariatrics, robotics, abdominal wall hernias, reflux disease, colon, and gastric cancer.

New York-Presbyterian/Weill Cornell Medical Center, an 862-bed medical center affiliated with Weill Cornell Medicine, provides emergency, primary, and specialty care in virtually every field of medicine. Their staff is dedicated to providing the highest quality, most compassionate care and service to each and every one of their patients and their families in a warm and friendly environment.

Throughout his academic career, Dr. Bellorin-Marín earned his medical degree from the Central University of Venezuela in 2003 and completed his surgical residency at the University Hospital of Caracas in 2008. After relocating to the United States, he completed his research fellowship at Cleveland Clinic Florida, followed by his second residency in general surgery at New York-Presbyterian Queens in 2016, where he served as Chief Resident. Finally, he completed his fellowship in advanced GI and minimally invasive surgery at New York-Presbyterian Hospital in 2017.

Distinguished as a Fellow of the American College of Surgeons (FACS) and the American Society of Metabolic and Bariatric Surgery (ASMBS), the doctor is board-certified in general surgery by the American Board of Surgery (ABS). The ABS is an independent, non-profit organization located in Philadelphia, Pennsylvania, founded for the purpose of certifying surgeons who have met a defined standard of education, training, and knowledge.

Professionally, he is an active member of the American College of Surgeons, the Society of American Gastrointestinal and Endoscopic Surgeons, the American Medical Association, and the American Society for Metabolic and Bariatric Surgery.

Bariatric surgery is a surgical specialty that focuses on weight loss surgery ie: gastric bypass, sleeve gastrectomy, etc. General surgery is a surgical specialty that focuses on abdominal wall hernias and abdominal contents including the esophagus, stomach, small bowel, colon, liver, pancreas, gallbladder, appendix and bile ducts, and often the thyroid gland. A general surgeon performs a wide range of abdominal surgeries for many forms of intestinal and abdominal wall neoplasms, gallbladder disease, and gastric and pancreatic disease. They follow the patient through critical care and surgical recovery all the way to outpatient care.
