

Proof Bigfoot is real in new 2022 Bigfoot documentary

Bigfoot creatures surround investigators

Vancouver, British Columbia Aug 26, 2022 (IssueWire.com) - [Jason Kenzie](#), a Filmmaker, extreme animal photojournalist, and Sasquatch skeptic joins a dedicated team of Bigfoot Researchers. Together they take you along the Lousianna River into the deep forests of Texas. For seven days and nights, Jason documents the team as they search for evidence of this much-debated cryptid.

In [Searching for Sasquatch: Chapter 5](#), The Texas Screams events unfold quickly.

From out of the night's shadows, the team is surrounded by large creatures screaming and howling at them.

"Those are not Coyotes guys!!" whispered Todd Parsons, a long-standing Bigfoot researcher.

The expedition continues to pump adrenaline as a **tall bipedal creature stares at them from 30 feet away**. Watch original footage as what appears to be Bigfoot moves from a crouching position then stands up and walks off.

This film contributes to a growing body of evidence that the creature known as Sasquatch or Bigfoot exists.

Born in Campbell River, British Columbia, Canada, Jason Kenzie grew up loving the great outdoors and having a passion for wildlife. He started as a photographer but soon grew to love Journalism and filmmaking.
