SEEDS *of* DESTRUCTION

by Sue Golemon Whitaker

Daphne, Alabama Aug 24, 2022 ([IssueWire.com](https://www.issuewire.com)) - Life is a journey to the unknown; it is dynamic and liberating, and as we grow, we learn to live, accept and love both the light and the darkness it brings. We celebrate with each joy and cry for every heartache. We are navigators of our own lives, without a promise of a smooth sailing path, but we learn, and learn to adjust our sails to match the all waves and thunders we encounter.

"Life is a work of a lifetime" according to the author as she shares with us her book "Seeds of Destruction" which narrates the major incident that almost took the life of her own son Greg, also the life of a family, on how they live with their struggles, joy, pain, and even finding the true path in nurturing their faith in accordance to God's will. "The book should be interesting to many audiences especially to young military families trying to cope with the demands of their work commitments, as they constantly move from one place to another" the author added.
