

SHANGHAI WINMAN Introducing WM-601MN Glue Potting Machine

Since 2001, WINMAN industrial engineering has designed and manufactured the highest quality, custom Sheet Metal Fabrication Equipment, such as metal sheet roller cutting machine, metal sheet punching machine

Jiading, Shanghai Aug 6, 2022 ([IssueWire.com](https://www.IssueWire.com)) - **SHANGHAI WINMAN** industrial engineering is a leading china based gasket-making machine supplier. The company has designed and manufactured the highest quality Two Component Glue Potting Machine (WM-601MN).

The **glue potting machine** is new glue filling equipment that allows to experience smart work.

Its powerful electronic control system adopts a high-stability original motor, PLC, control panel, electronic components, wiring, dust-proof, and anti-static systems, all designed according to national standards.

High-pressure-holding screw pump + high-precision gear pump, accurate glue output, equipped with A and B glue level alarm function, can prevent glue breaking phenomenon and glue non-drying problem in time.

The glue is filtered from the glue barrel to the glue head to prevent impurities from entering the glue barrel and causing the pump to jam.

The glue potting machine adopts the liquid dispensing and packaging method and only mixes at the glue outlet. After use, the mixing tube is removed and soaked in the cleaning liquid or cleaned directly.

The glue potting machine integrated glue dispensing and filling design is ready to use, fully automatic, and easy to operate. Just press the start button.

WM-601MN [glue potting machine](#) has different operating modes. The standard control system is a movable cantilevered control panel with PLC intelligent touch screen. After adjusting the machine and resetting the parameters, the machine will run accurately, safely, and efficiently according to the technical setting during the production.
