

Take a Step Towards Life With Hope in Heart

Nobody knows your story or your stance if you don't speak up.

Greenwood, South Carolina Aug 12, 2022 ([Issuewire.com](https://www.issuewire.com)) - Hope in Heart is a new emerging non-profit organization on a mission to change people's lives. The platform is started by DeShaun Williams and Elaine Bridges, who are serving in the positions of Executive Director and Product Manager, respectively. They started the platform this year in 2022 and instantly progressed by leaps and bounds.

The vision behind the platform is to spread awareness on Mental Health issues and the raising concerns

about suicides in society. People do not value their lives and commit suicide just to escape from the chaos and their responsibilities. They are here to educate people that it is not the solution.

Hope in Heart is here to develop hope for the betterment of life. They want to aware people of Suicide Prevention. The mission is to make people enjoy their life from the best of what is available and don't despair and break hearts in their condition. Life is the name of possibilities and will turn into good days.

They are hosting different rallies, seminars, and retreats for the purpose. It will help people to speak their hearts and expel all their anxiety in the form of words. Nothing can be better healing than speaking out about the turmoil inside.

The team also assists different companies, colleges, and educational platforms to expand their knowledge and awareness. For this purpose, they provide them with various courses, training, and other materials. You can join them for the cause, as they are also seeking volunteers willing to advocate.

The platform is officially launching soon, and right with the launch, they are planning to host two main events for the best outreach. One is a retreat on 8th October, that will last only a day. The other one is a seminar which will happen on 21st October. Both events will target and address a big audience. Each will discuss the topics of Mental Health and Suicide Prevention.

Join the Hope in Heart in their noble cause and assist them in making a better life out of the misery that people bear. Help them to educate the sufferers and stop these affected ones from ceasing their life, both mentally and physically. Contact the team for more information, or visit their website:
