

# The art of music by Mohammad Fatemi, a famous Iranian Singer and Composer

Mohammad Fatemi Iranian Singer, Musician , Actor

**Tehran, Iran Aug 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - Biography of Mohammad Fatemi:**

Mohammad Fatemi (born on 23 May 2000) is an Iranian singer, actor, songwriter, music arranger, and composer living in Tehran, Iran. He started working in the music industry at the age of 11 due to his interest in music. At the age of 12, he became proficient at playing the piano and guitar, and his efforts

to learn composition led him to produce and arranged music for several artists. Although he prefers to produce music for new artists, he has collaborated with many famous singers from different countries. He released his first official song in 2019. Mohammad Fatemi has created and published more than 50 successful works for readers. It goes without saying that (Mohammed Fatemi) is also active in the field of acting in cinema and television

Art music is a term that encompasses musical traditions that apply advanced structural and theoretical considerations to a written musical tradition. In Western countries, classical music is the main tradition. Music has two extensions, which are serious music and light music. From early antiquity, the style of artistic music

It existed alongside other music and developed through time periods from the Middle Ages to modern times. There are no salient features of the style as time has brought significant changes and differences for each generation.

### **Reviews and specifications:**

Art music is an umbrella term that describes music played by Western classical music. For example, in some definitions, Catherine Schmidt-Jones defines art music as music that is more popular with the listener than ordinary music. According to Katherine, art music includes a variety of challenging music such as jazz, rock, and classical. In general, artistic music is very formal music that has the majority if not all of the elements a priori in

Written forms are marked and not optionally or optionally executed. Artistic music relates to classical traditions that focus on formal styles, inviting technical and detailed thinking and criticism, and

At the same time, the need for a listener to try significantly more. Artistic music is primarily a tradition of written music that is preserved in musical symbols, as opposed to oral recordings, notes, or recordings, as Modern and traditional music can be seen

### **Root:**

Music is quite ancient and definitely a celebration of all human discoveries and inventions. Art music as a genre began around the 11th-century Great importance and durability -They say that music is the language of the soul. Compared to pop music, art music pays little attention to rhyme

Formatting and information in it. Due to the listener's greater attention to him understanding the art, expertise, and meaning of the lines, the artistic music has turned the music collection into a port of human penetration and reincarnation. It changed the way music was perceived and ultimately changed the general and classical understanding of the power of music. The real legacy of art music is to promote a new kind of musical humanism that relies on melody and harmony, not rhythm, texture, and color.

Pop culture is respected. Music has significantly connected music and the minds of listeners, ultimately developing our modern concept of music as an art of thought and expression.

In addition to extensive activities in the world of Acting and recording, Mohammad Fatemi is also very active in the field of music and Composer, he has shared great projects on global platforms, all of which have high musical power.
