Project Development - One of the project's primary goals is to ensure that every holder benefits from their trust in the project. The team has set aside funds for the necessary expenditures, particularly for the development of the website and future initiatives that will generate revenue and will be used to fund holders with loyalty rewards.

Centurion Capital - CENTURION CAPITAL is Centurion's one-of-a-kind weapon for growth and strong community. It serves as a conduit for all NFT holders to receive airdrops, which is through a comprehensive assessment of high potential start-up tokens in the global market. We will allocate 87% of the funds from the sales of all sold NFTs to Centurion Capital, held by the team, and it will be invested in high-potential tokens, and 50% of each transaction will be given to all NFT holders.

Airdrop & Rewards - We will provide an airdrop or free token to NFT holders. The amount they will receive is proportional to the quantity of held NFTs. If there are more NFTs, more tokens will be distributed. For example, if Centurion invests 1,000,000 tokens, 50%, or 500,000, will be distributed equally to 4,444 NFT holders (150 tokens per NFT). In other words, if you have two NFTs, you will be given 300 tokens. The rewards will be given to the community, so regularly check the website and the Twitter account for rewards updates.
