London, United Kingdom Aug 29, 2022 ([Issuewire.com](https://www.issuewire.com)) - Headquartered in Times Square New York, Vertex Group (Vertex Global Services), World's 19th most innovative company announced the launch of Vertex Technologies – The technological arm of the Vertex Group which will provide IT Consulting, Digitization, ITAS/SAAS, Artificial Intelligence, Machine Learning, Cloud offerings & Infrastructure as a Service.

Technology has opened up new possibilities for accelerating growth and information transmission. These are the two significant objectives behind the launch of this new line of business under Vertex Group. The new launch is focused on offering clients end-to-end IT solution services, accelerating information flow, and lowering operational costs with the goal of streamlining and simplifying communication between not only the organization's internal systems but also the third parties with whom the organization works.

From the cloud to the edge, Vertex Technologies' service portfolio assists clients in managing their Data Centres in the simplest and most effective way possible. The company's mission is to deliver outstanding end-to-end data centre solutions that fulfil a wide range of client demands across the enterprise.

Vertex Technologies intends to break into the global IT consulting industry by offering supply chain

solutions, cutting-edge technology, and digital strategy to major public and private businesses.

Vertex Technologies is turbocharged by the depth of Industry expertise of its core leadership team – Gagan Arora as CEO, Taran Bedi as Chief Commercial Officer, Vikas Arora as CFO & Dr Asif Iqbal (President for Indian Economic Trade Organization) as Chief Advisor for Vertex Technologies.

Vertex Group Founder, Gagan Arora - also chairs the Trade Commissioner for India Africa Trade Council, Delegate of India for Global Chamber of Business Leaders, Delhi Chapter of the Foreign Investors Council and Director-Global Education serving 52 countries for Asia Arab Chamber of Commerce. Gagan has led the growth of Vertex Group into 7 countries in just 6 years, which has been acknowledged by the industry and earned him many accolades including winning the BEST CEO award 7 times, 40 UNDER 40 & Asia's Youngest Entrepreneur by Asia One featured on CNBC & ET Now. Gagan is also recognized by GMI and Forbes amongst the Top 100 Influencers in India.

"Vertex Technologies would be a breakthrough for booming and established businesses globally. As IT teams to focus on supplying remote work solutions, they occasionally struggle to provide more general business assistance due to a lack of time and resources. By utilising a wider range of automation solutions and strengthened interaction with Vertex Technologies, IT teams will have to spend less time managing their technology requirements and apps on a day-to-day basis and would have efficient time to support business priorities. We are excited to welcome Taran as a part of our Leadership team"- stated Mr Gagan Arora, Founder - Vertex Group

"I am thrilled to join Vertex Technologies with an envision to respond to the rising technological needs of companies that want to put to use their data accumulated in internal systems to strengthen engagement with existing customers. Vertex is deeply committed to achieving organizational excellence, and I'm looking forward to working with the team who has grown to seven countries in just six years with 3000+ people said Mr Taran Bedi, Chief Commercial Officer - Vertex Technologies in announcing the commemoration of the new arm of Vertex Group.

Together we share a commitment to technology innovation, customer satisfaction and high quality. Backed by trusted full-service technologies, with benefits at scale, data centre owners and operators can address the cooling boundaries they face with existing technology platforms. Vertex Technologies will focus on saving the cost for its partners & maximize their ROI at the present infrastructure. We are thrilled to launch Vertex Technologies said Mr Vikas Arora, Chief Financial officer of Vertex Technologies.
