

60% OFF Leawo Ultimate 4K/UHD Blu-ray Toolkit & Photo Enlarger Freebie in September 2022

Autumn has now officially arrived, and there are plenty of deals on Leawo September online sale to save, including up to 70% discounts, 30% off sitewide coupons, and Photo Enlarger freebies.

Shenzhen, Guangdong Sep 23, 2022 (Issuewire.com) - Every year we see thousands of excellent Black Friday deals, but the Black Friday 2022 is still a long way off yet. It doesn't mean shoppers need to wait until then to save. In fact, some online trading events have already taken place. Leawo Software, a leading developer and supplier specializing in multimedia solutions and data management software, has reportedly launched its [2022 Golden Autumn Giveaway & Specials online sale](#). Until Oct. 15th, 2022, people can get up to 70% discounts on various bundles and singles, including Leawo PhotoIns, Leawo All-in-1 Bundle, CleverGet Video Downloader, and more. Furthermore, a large number of 30% sitewide coupons and Photo Enlarger are offered for free.

Autumn is not only a time for falling leaves to return to their roots but also a season for holidays. For those who do not want to go out, film and television are their best home. Therefore, for these people, 60% off Ultimate 4K/UHD Blu-ray Toolkit is the best deal, which provides the most comprehensive UHD Blu-ray solution. For a limited time, this bundle is available at the price of \$123.94, saving \$185.91 more than usual. Those who are interested can decide whether to buy through the following detailed introduction.

- [UHD Ripper](#) – This software is considered to be the best 4K Ultra HD Blu-ray Ripper. It is able to rip and convert 4K UHD discs, 4K multi-angle Blu-ray discs, 4K UHD Blu-ray folders, and 4K UHD Blu-ray ISO files to video or audio files in over 180 formats like MP4, MKV, 4K MP4, 4K

MKV, etc. Most importantly, it can retain the original video and audio quality such as HDR10, HDR10+, Dolby Vision Image, Dolby 7.1 audio channel, etc.

- [UHD Copy](#) – Unlike the ripper, it is built more for physical 4K Blu-rays, because it can copy 4K Blu-ray content between 4K Blu-ray disc, 4K Blu-ray folder, and 4K Blu-ray ISO file. With both Full Movie mode and Main Movie mode, it delivers all-in-one and quality lossless BD100 to BD100, BD66 to BD66, and even 3D UHD backup solutions. At the same time, AAC 2.0 protection will be removed and every element in the source 4K UHD content will be retained.
- [UHD Drive Tool](#) – This software came into being in response to the incompatibility of 4K drives. For example, the firmware on the UHD drive prohibits third-party UHD backup and ripping software from accessing 4K discs from the drive. With this software, users can easily downgrade the UHD-unfriendly firmware to a compatible version for 4K UHD Blu-ray ripping and backup. The software has been tested to support the vast majority of existing 4K UHD drives.

Perhaps for people in the new era, streaming is still a better choice. In such circumstances, [CleverGet Video Downloader](#) is clearly a better fit for them. As a newly released product, it also has powerful features – download up to 8K videos, movies, TV shows, music videos, and even live stream videos from 1000+ websites, such as YouTube, Twitter, Vimeo, Instagram, TikTok, and more. What's more, for time saving, it supports batch downloading, playlist downloading, and hardware acceleration. Now, in this event, it is available with a 50% discount. That is, people can get a lifetime license for this software at only \$39.97.
