

Ahsan Shah, MD, a Hematologist-Oncologist with Florida Cancer Specialists & Research Institute

Get to know Hematologist-Oncologist Dr. Ahsan Shah, who serves patients in Florida.

New York City, New York Sep 26, 2022 ([Issuewire.com](https://www.issuewire.com)) - An exceptional hematologist-oncologist, Dr. Shah treats all hematological and oncological malignancies as well as benign hematologic disorders. He works at Florida Cancer Specialists & Research Institute, operating out of Fort Myers - Colonial Office, Fort Myers Cancer Center, and Estero.

Founded in 1984, Florida Cancer Specialists & Research Institute has built a national reputation for excellence that is reflected in exceptional and compassionate patient care, driven by innovative clinical research, cutting-edge technologies, and advanced treatments, including targeted therapies, genomic-based treatment, and immunotherapy. With over 250 physicians, 220 nurse practitioners and physician assistants, and nearly 100 locations in the network, the Institute is committed to providing world-class cancer care in community-based settings close to home.

With a broad educational background, Dr. Shah earned his medical degree from the Ross University School of Medicine in Bridgetown, Barbados. After completing his residency in internal medicine at the University of Connecticut School of Medicine in Farmington, he was awarded a fellowship in hematology/oncology at Moffitt Cancer Center through the University of South Florida in Tampa.

Subsequent to his education, he attained board certification in internal medicine, hematology, and medical oncology through the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Prior to medical school, Dr. Shah worked with Dr. Sohail Husain and studied at the Yale University School of Medicine for four years, yielding high-impact publications in various peer-reviewed journals including The American Journal of Physiology, Gastroenterology, and The Journal of Biological Chemistry. He was also a recipient of a prestigious American Gastroenterological Association (AGA) research fellowship award.

Hematology is the branch of medicine concerned with the study of the cause, prognosis, treatment, and prevention of diseases related to blood. Oncology is a branch of medicine that deals with the prevention, diagnosis, and treatment of cancer. A hematologist-oncologist is a physician who specializes in the diagnosis, treatment, or prevention of cancer, malignant blood diseases such as leukemia, lymphoma, and multiple myeloma, and blood disorders such as iron-deficiency anemia, clotting abnormalities, hemophilia, sickle-cell disease, and rare hematologic related syndromes, and diseases.

With a strong background in research with a focus on diseases of the pancreas, Dr. Shah has presented his work at international conferences including The American Pancreatic Association Meeting and Digestive Disease Week.

Passionate about humanitarian work, Dr. Shah has volunteered his time for various charitable organizations, including Humanity First, an international nonprofit organization that provides disaster relief and long-term development assistance in vulnerable communities. He enjoys studying biological sciences, history, and philosophy, and spending time with his wife and two boys.
