

## Alabama Marine Services Company Offers a Solution for Storing Boats Through Winter

# Webb's Hardware & Marine Services

**Mobile, Alabama Sep 26, 2022** ([IssueWire.com](https://IssueWire.com)) - As the cold weather sets in and the boating season slows down, many boat owners begin to think about how they will protect their boats from the elements. Alabama Marine Services company offers a safe, long-term option: installing a boat lift.

[Boat lifts](#) keep the boat out of the water when it's not in use, helping prevent algae, corrosion, and even wind and storm damage. Proper storage helps to protect the boat from harsh weather conditions and extreme temperature changes. Ultimately, a boat lift can provide peace of mind to boat owners during the winter months, knowing that their boat is safe and sound.

Boat owners may choose to lift their boats out of the water after every boat ride or just in colder seasons. Either way, giving the boat time away from the elements is proven to help it last longer. It also allows access to the bottom of the boat for maintenance and cleaning.

Boat lifts come in a variety of sizes and designs, so it is important to select one that is well-suited to the boat and dock size. The installation process can be straightforward, but it is always best to consult with a professional to ensure that the lift is installed correctly.

[Webb's Hardware & Marine Services](#) has been providing hardware and marine products and services to the boating community around Orange Beach for over 40 years. They have a team of experienced and certified technicians that install boat lifts quickly and efficiently across [Orange Beach](#), [Gulf Shores](#), and other surrounding areas.

Whether it's a small fishing boat or a large yacht, they can help boat owners find the perfect gift for their boats. Webb's also provides other marine services such as [piling wrapping](#) and installation, as well as seawall restoration and dredging. These services may also be necessary when installing a boat lift. Although they are known as a local, family-owned business, they offer a wide range of marine accessories and supplies, so locals can get everything they need in one place.

If boat owners are looking to protect their investment in their boat this winter, they can contact Webb's Hardware & Marine Services at (251) 981-6323 or <https://webbshardware.com/contact-us/>. Webb's Hardware will come to the property, assess the situation, and provide a no-obligation quote and

recommendation for how to best install a boat lift to protect the boat.

Webb's Hardware & Marine Services has been serving Orange Beach, Alabama, for over 40 years.
