

Enter India In A Hassle-Free Way With The New Indian Electronic Visa

New Delhi, Delhi Sep 23, 2022 ([Issuewire.com](https://www.issuewire.com)) - If you are a foreigner, a citizen of any foreign country, then entering India would require you a visa. If you are a US citizen, the Indian visa can be collected in two ways. One is by visiting the Indian embassy and collecting it in paper form and the other one is by collecting it online electronically.

The US citizens who are planning to visit India must have an eligible purpose for visitation. It can be for three limited purposes, tourism, business, or for medical purposes. The Indian government has started this process to make the visitation of foreigners even more convenient and faster. The citizens of the US will be able to receive it in their email and the application process is uncomplicated, it does not require more than a few minutes to complete. The only requirement is a valid passport, a valid email address, and a valid payment method. For further information kindly visit: <https://www.india-visa-online.org/india-e-visa-for-united-states-citizens/>

US citizens who are visiting India for tourism can get visas that are valid for 30 days, 1 year, and 5 years. For business purposes, the Indian business e-Visa will allow US citizens to stay in the country for 180 days continuously. The validity of this is 1 year and it is a multiple entry visa.

For medical purposes, the requirements are the same. The applicants need to submit the first or biographical page of their passports while applying for the Indian medical e-Visa. Along with it, an official letter from the hospital that the visitor will be seeking treatment is required. The application must be 4-7 days in advance before the entry date and the applicant must have a return ticket with them. There is also another option for the Indian Medical Attendant Visa where the requirements stay the same as the Indian Medical e-Visa. For medical attendant visas, applicants must be traveling with someone who has an Indian medical visa or has applied for it. Two medical attendant visas are granted against one medical e-Visa and are valid for only 60 days.
