

Flyers Thinking About Heading Back South

Boston, Massachusetts Sep 1, 2022 ([Issuewire.com](https://www.issuewire.com)) - In 2022 consumers have the freedom to purchase, order, or reserve, practically anything with a click of a button. Buying has never been more transparent through the utilization of mobile app technology. Typically, users can perform tasks such as booking a hotel or purchasing game tickets all from an app; so it only makes sense that one can order a private aircraft to get anywhere, and at any time using the UberJets LetsJet App! UberJets puts the power of the Virtual Hangar in the palm of your hand. You can now reserve a completely customized private aircraft as easily as ordering a pizza.

UberJets leads the private aviation industry in private jet booking technology allowing its members to have the quickest access to any and all aircraft they would wish to fly on from our state-of-the-art [Virtual HangarSM](#). Inside the highspeed, [Let'sJet app](#) powered by UberJets members have the power at their fingertips to click and travel anywhere all over the globe.

As summer's end is quickly approaching, flyers are starting to plan their trips back down south to avoid the cold weather and enjoy the fall and winter in southern states. The end of the summer is always known as a hectic time in the private aviation industry as the trend of flights going from south to north is switching from north to south.

The UberJets Virtual Hangar is the best option to fulfill all of the user's private travel needs. The UberJets Virtual Hangar platform allows users to choose from any aircraft that they wish to fly on to accommodate all of their needs. When moving back south for the winter there are a lot of family, friends,

and belongings that are typically needed to bring along; that is why it is important to have the right aircraft. UberJets strives to always provide users with the best aircraft options to fit their needs.

During this busy time of moving south, aircraft may be hard to come by, however, with the installment of the Virtual Hangar proprietary aircraft tracking technology, users will always have an aircraft in position for their trip. This software provides the user a special advantage ahead of competitors.

UberJets is ahead of the curve when it comes to trends on aircraft movement which is why taking advantage of the Virtual Hangar software by UberJets for your migration south is the best option for your convenience and pricing. Historical trends for the most popular routings for this time of year consist of New York to Palm Beach, Massachusetts to Fort Lauderdale, and The Hamptons to Naples. Passengers interested in these common routes can also have the ability to subscribe to UberJets Empty Leg Deals. This allows users to put in their common routing and whenever UberJets is able to populate an empty leg that matches your routine, users will be notified that there is a great deal on that specific route. Therefore subscribing north to south routing this time of year with flexible dates of departure could match up with an empty leg enabling a great price option when moving south.
