

HYDROMO HOSTED THE 10th ANNUAL AP CREDAI CHAPTER IN KAKINADA.

Kakinada, Andhra Pradesh Oct 12, 2022 ([Issuewire.com](https://www.issuewire.com)) - HYDROMO is the most efficient provider of environmental, energy, and renewable resources. One of the leading firms in India for water and energy solutions. Hydromo supports feasibility and design, installations, and maintenance for custom sustainable water and energy solutions for the industrial, commercial, and luxury housing sectors. For decades, Hydromo has worked relentlessly to deliver and incorporate water and energy solutions for a better society.

CREDAI is the apex body of organised Real Estate Developers Associations, representing over 13,000 developers spread across 21 states in the country.

CREDAI Kakinada Chapter conducted its 10th Annual General Body on 28-08-2022 at G.R.T. Hotel, Kakinada, Andhra Pradesh. The meeting was hosted and sponsored by [Hydromo](https://www.hydromo.com).

The event was attended by Sri Nekkanti Srinivas, President, CREDAI Andhra Pradesh. Sri S.V.M.Chandra Sekhar, Vice-Chairman, CREDAI Andhra Pradesh, Sri V.S.Prasanna, Chairman, CREDAI Kakinada, Sri K. Vijay Krishna, Vice-President, CREDAI Kakinada Sri MNR Chakradhara Rao, General Secretary, CREDAI Kakinada. Hydromo was represented by Jay Krishna, the founder & CMD,

Nandita Kanwar, Director of Growth and Strategy, Bhavani Shankar, Head of Purchases, and Lankesh, Managing Partner.

CREDAI Kakinada chapter announced its new body members & designations for the tenure of 2022-24.

Apart from this, the announcement and inauguration of the CREDAI Kakinada Youth Wing Chapter were made. Finally, CREDAI Kakinada Home Expo '2022 will be conducted on November 4th, 5th and 6th, at SRMT Function Hall, Main Road, Kakinada as communicated by Vijay Krishna, Vice President, CREDAI Kakinada. The event turned out to be successful, with 100% attendance by the chapter's builders.

Hydromo showcased and presented its state of art technologies and solutions for builders. The solutions that can be obtained at one stop are highly efficient and will maximise CAPEX for builders. The pneumatic technologies, for example, will cut the cost and nuances of building the overhead tanks, as quoted by Nandita. Similarly, products and solutions for [waste water management](#) and reuse in line with PCB and IGBC standards were walked through.
