

Jaswant Singh & Seedventure Limited Announced their recent Portfolio

New Delhi, Delhi Sep 13, 2022 ([IssueWire.com](https://www.issuewire.com)) - Jaswant Singh and His Company Seed Venture Limited Announces Their Latest Portfolio

Seed Venture Limited pioneered growth equity investments in high-growth companies globally. Today, they continue to seek investments that drive global evolution. As proven committed partners and growth investors, Seed Venture Limited's value lies in its ability to execute growth and underwrite, drawing upon many years of experience and its strategic value-added competencies.

Seed Venture is a private angel investment firm that invests in high-growth companies globally. Seed Venture partners with outstanding start-ups and business veterans with undeniable equity and the potential to thrive. Through his company, "Seed Venture Limited," "Jaswant Singh" currently mentors more than fifteen start-ups in India, helping them enter the start-up ecosystem. He has been nominated for the Padma awards 2023 for exceptional and distinguished service.

While angel investment has existed in practice for years, the model of angel investors as a dominant source of financing for start-ups and high-growth companies has emerged over the past couple of

decades around the world. The angel investment sector is growing and becoming more formalized and organized through the creation of angel groups and networks. In addition to the money provided, angel investors play a crucial role in providing strategic and operational expertise for new ventures and social capital.

Access to finance for new and innovative start-ups, as well as business veterans, involves both debt and equity finance. Serial entrepreneur and Investor Jaswant Singh and his company, "Seed Venture Limited," invested undisclosed amounts in Many India-based start-ups and are also associated with a few online platforms in the United Kingdom.

Banks were reluctant to lend to small, young firms even before the recent financial crisis due to their perceived riskiness and lack of collateral. The financial crisis widened the existing gap at the early stage with bank lending to falling start-ups. Seed Venture Limited, an experienced entrepreneur and business-oriented, has become increasingly recognized as an essential source of equity capital at the seed and early stages of company formation. With fewer and fewer venture capitalists investing at the early stage, the equity funding gap between individual investors and venture capital has grown dramatically. Seed Ventures Limited has sought to fill this gap by investing in start-ups and business veterans through groups and syndicates, increasing the total deal size for companies and businesses seeking early-stage financing.

For more information, Seed Venture Limited's team is highly responsive to inquiries and questions. Kindly contact them for further clarifications or in case of any suggestions.
