Celebrities, and Geniuses Have in Common' on August 6, 2022. The book is available on [Google Play](#), Amazon, and Barnes and Noble.

A well-known author, internet celebrity, actor, writer, filmmaker, podcast host, and entrepreneur, Josh Madrid has shared 33 proven life hacks of some of the most successful people in the world to help his readers replicate those patterns and flourish in their lives.

"I have spent the last five years learning, practicing, and teaching others about the success patterns that millionaires, professional athletes, celebrities, and geniuses share. My goal with his book is to help people who live difficult lives navigate life better," said Josh, who also hosts a popular podcast show, [The Dropout Degree](#).

The book's premise is broadly around supporting people in their life journey and equipping them with the right tools to create the life they have always dreamed of. Within a month of its release, the book has garnered over 500 five-star reviews and continues to grow in popularity exponentially.

"The book is different from other self-help books available in the market. It aims to provide tangible results and covers essential topics such as money, mindset, consciousness, and NLP frame control. The idea is to help my readers build a growth mindset and understand how the most successful live their lives to generate wealth," Josh added.

[Josh](#)'s next book 'The Art of Frame Control' is also set to release in three weeks.
