## Kamo Releases His First Single "1st Quarter"

Los Angeles, California Sep 12, 2022 (<u>Issuewire.com</u>) - <u>Kamo</u> is an on the rise recording artist with one thing on his mind, success. At the young age of 18, his interest in music grew. Participating in the choir at church played a role in Kamo discovering his abilities, but dealing with new experiences and individuals outside of the church fueled him to record. Once he started he never stopped.

After honing in on his music he discovered his sound. The best way to describe him is versatile, original, and authentic. When creating music he hums to himself to find a flow and melody for the record. Doing that helps him find his style of delivery for the track.

Currently, he is working with Trap Drumma who is not just his manager but a role model and producer as well. They together create hits. They have amazing musical chemistry that helps the creative process come together easily. This year is about catapulting their content to the masses and growing. His first project is titled "1st Quarter". This is his first release and it's going to set the tone for his work and brand expect him to make his mark with this debut single. Soon you can expect new releases, but in the meantime enjoy "1st Quarter".
