

Leawo Autumn Deals 2022: Up to 50% OFF PhotoIns and Photo Enlarger Freebie for One-Stop Photo Editing

Leawo just launched their September sales to celebrate the arrival of golden Autumn, where people can get up to 70% discounts and Photo Enlarger for free.

Shenzhen, Guangdong Sep 1, 2022 (Issuewire.com) - As the weather gets colder and the days get shorter, the sweater weather is coming. People can enjoy the beauty of fall and take a leaf voyeur before it slips away. To make the most of this romantic time of year, Leawo Software, a leading developer and supplier specializing in multimedia solutions and data management software, just unveiled their [2022 Golden Autumn Giveaway & Specials](#) online sales. Until September 30, 2022, shoppers can get up to 70% off discount on various bundles and singles, including Leawo PhotoIns, Leawo All-in-1 Bundle, Ultimate Blu-ray Toolkit, [CleverGet Video Downloader](#), and more. Also, the Photo Enlarger is generously offered as a freebie for every participant.

Autumn is a gorgeous harvest season when the air is fresh, the ground is soft, and the countryside is enveloped in the riot of color. At a time like this, it is especially meaningful to have a photo for this autumn. For people without an advanced camera, enhancing photos is the best way to make up for it. Leawo Software specially provides their one-stop AI photo editor with a 50% discount. That is, people can purchase this 3-in-1 photo solution at the price of \$54.97 for a limited time. For details on the usefulness of this package, see below.

- [Leawo Photo Enhancer](#) – This is an AI-driven photo enhancer to automatically improve photo quality in batch within simple clicks. As a portrait enhancer, it can retouch skin, remove freckles, enlarge eyes, adjust lighting, and more. As a landscape enhancer, it can fix exposure, adjust white balance, improve the sky, boost color, optimize contrast, sharpen details, and more.

What's more, it can act as JPG and RAW enhancers to fix related problems of respective formats. Simply put photos into the program and everything will be done by AI.

- [Leawo Photo BG Remover](#) – This software provides the most comprehensive one-stop image background removal solution. After importing photos, the program will automatically and intelligently remove the photo background with the smart algorithm. Even intractable backgrounds around hair edges and transparent objects can be precisely removed. Also, for more accurate background removal, manual adjustment is supported. After background removal, users can change and edit the photo background at will.
- [Leawo Photo Enlarger](#) – Like Photo Enhancer, this is also an AI-powered image more upscale. It can batch enlarge photos by increasing image resolution rather than just enlarging pixels. At the same time, it can improve color rendering, reduce artifacts, enhance detailed texture, remove noise, fix blurry images, optimize contrast, sharpen details, and more while enlarging photos. Currently, it is offered as a freebie. Just go to the event page and fill in some information, then a free activation code will be sent to their email.
