

Money Is Like Mobile Battery, Use It Only When Necessary: Debabrato Mukherjee, Founder & CEO, NPD Security

Chandigarh, India Sep 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - The walls of **Debabrato Mukherjee's** office are lined with certificates, awards, and accreditations he has received. Debabrato Mukherjee has an enviable collection, rivalling, maybe even surpassing, those of many executives who've graduated from the country's premier tech and engineering institutes.

But Debabrato Mukherjee does not see these as awards, he tells *YourStory*. For him, the wall reminds him of how far the **22-year-old** has come in his journey as a **cybersecurity expert, tech entrepreneur, and business leader**. To be precise, that's over **8 years** as a tech and cybersecurity wizard, and **2** as **Founder and Chief Executive Officer of GTC Security**, which is poised to **become the largest global player of vulnerability management in the next three years**.
