

Motzoid India Launches MOTZOID EDUCATION

Leicester, Leicestershire Sep 19, 2022 ([Issuewire.com](https://www.issuewire.com)) - [Motzoid India](#) is set to release the next project "[Motzoid Education](#)" which will be an educational website for schools and students to use. Motzoid India released the 1st social media app in India this year and it is their 2nd huge project. the plan is to get every student across the UK to learn and do their best at GSCE and in colleges. The MOTZOID EDUCATION will also be an Application for their user to use as per the reports. not only GSCE but other courses will be available to use. it is being said that it will be a free-based website but we will only find out after it is built. the project started on 17th September 2022 and it may take a while

to get across the world. the students will have to register and sign up for free and use any courses they would like to get enrolled in. the free plan may change in the future to pay but it will be free for schools and colleges across the United Kingdom. The project had its inspiration from GSCEPODS which is a free-based Pod website that provides free lessons on every subject.
