

Santram Engineers Awarded as the Channel Partner of the year All India 2022

Santram Engineers won the Best Dealer All India 2022 Award in the highest category for its excellent performance as a channel partner for Premium Transmission (P) Limited.

Ahmedabad, Gujarat Sep 19, 2022 ([Issuewire.com](https://www.issuewire.com)) - Santram Engineers Private Limited, a prominent industrial gearbox supplier in India and a Premium Transmission channel partner, was announced as a winner of the Best Dealer All India 2022 Award in the top category by Premium Transmission Private Limited – India's first [indigenous industrial gearbox manufacturing company](#) and today a leading provider of power transmission solutions globally. Premium Transmission presented the award at the All India Dealers Meet organized in Jaipur at Le Meridien Hotel.

Santram Engineers is the largest distributor for Premium Transmission. The company has been recognized for its outstanding performance as a channel partner. It has played a crucial role in distributing transmission solutions across western and southern India, surpassing its annual business goals by delivering exceptional service and superior value to customers. Being awarded the Best Dealer All India 2022 honor reflects its commitment to exceeding customer expectations and maximizing every aspect of the partnership.

The event also witnessed state-of-the-art product launches a day before the award event, i.e. on 13th Sep 2022, towards a more advanced future for the manufacturing industry and its valuable clients and end users. The four products launched were beveled smart modular helical gearboxes, agitator duty gear heads, fluid coupling, and a four-leg cooling tower gearbox.

About Premium Transmission

Premium Transmission, founded in 1961, is a leading global manufacturer of cutting-edge power transmission products with state-of-the-art manufacturing plants in India and Germany. It is also a well-

recognized part of an extensive diversified industrial conglomerate.

About Santram Engineers

Santram Engineers was founded in 1995 as a modest trading company dealing in gearboxes. Today, it has evolved into a fully established supplier of a wide range of power transmission products in western and southern India. The company is also an authorized channel partner for five world-class brands and has offices across five different states in India.
