

Solara Adjustable Patio Covers The “Smart” Shading System

Solara has a “smart” patio cover which lets you enjoy the best of all worlds, all seasons.

Phoenix, Arizona Sep 21, 2022 ([Issuewire.com](https://www.issuewire.com)) - With the help of a [patio cover](#), you can protect yourself from the summer strong sun during the day and humidity at night, and rain.

What makes our patio covers unique from the competitive market is the advanced quality systems. There are a number of solutions available in today's market, from clapboard roof to aluminum patio covers, but most offer only partial solutions to weather problems and maintenance.

Solara has a “smart” patio cover which lets you enjoy the best of all worlds, all seasons. The patio cover is dynamic and can be transformed according to weather conditions and your demands.

That means, you can control the amount of light and shade you wish to receive, including protection from rain and humidity, while not giving up a refreshing summer breeze. Solara’s patio cover is crafted from aluminum and therefore requires no maintenance at all.

That’s why Solara’s “smart” patio covers are known for enabling you to significantly increase your living space and quality of life during the warm summer days as well as during the colder and rainy winter season. “We live on our porch” is what most customers say to about us.

We specialize in smart patio covers with many possibilities, making your dream come true. We accomplish this with state-of-the-art, long-term, and deterioration-resistant products without the need for maintenance.

Solara’s smart shading systems have a registered patent. Each patio cover has gone from quality assurance to make sure the best quality at affordable rates. We manufacture and assemble our products at our own factory, thereby focusing only on the highest standards of quality and finish.

We have customized designs since all of our patio covers are “custom made”, allowing us to provide solutions based on the needs of our customers, and helping them fulfill their dreams.

Solara Adjustable Patio Covers are also Eco-friendly. Our patio covers help customers lower their monthly lighting, cooling, and heating bills by providing shade and ventilation in the summer and direct natural light in the winter.

Solara is the only company that offers 2 types of louvered roof systems. An affordable lightweight advanced engineering roll forming louvered roof system and a high-end commercial heavy-duty extruded one.

So, no matter whether you need residential patio covers or commercial patio covers, Solara's team of specialists is dedicated to providing the best solutions at the cost of the customer’s pocket.

So, what are you waiting for? Provide shade to your home or office, and get higher protection today. Visit us at patiocover.us
