New York City, New York Sep 13, 2022 ([Issuewire.com](https://www.issuewire.com)) - Specializing in medical-surgical nursing and telemetry, Tracy is a registered nurse at Roxborough Memorial Hospital. She delivers excellent care to her patients and truly cares about them every shift she works.

Roxborough Memorial Hospital is a 131-bed community hospital. It has been serving the medical and health care needs of the Roxborough, Manayunk, East Falls, and northwest sections of Philadelphia communities for more than a century, having first opened its doors in 1890. The hospital is accredited by the Joint Commission on the Accreditation of Healthcare Organizations, the nation's oldest and largest hospital accreditation agency.

A 1995 graduate of the University of Mary Hardin-Baylor, Tracy attributes her success to hard work, dedication, and a love for her job.

A Registered Nurse (RN) is a nurse who has graduated from a nursing program and met the requirements outlined by a country, state, province, or similar licensing body to obtain a nursing license. RNs fulfill a variety of job duties. In addition to their primary role in treating and caring for patients, their responsibilities also include educating patients and the public about a variety of medical conditions, as well as providing emotional support and advice to the families of their patients. Other RN job functions include leadership, research, performing diagnostic tests and analyzing results, operating medical equipment, administering medications, recording patients' symptoms and medical histories, and assisting with patient rehabilitation and follow-up.
