

Tribe Mark Shares Recap Of The MTV VMA's & Words Of Encouragement From Glorilla Pimp.

Los Angeles, California Sep 8, 2022 ([Issuewire.com](https://www.issuewire.com)) - Tribe Mark also known as Markens Charles shares an intimate recap of the VMA's "Attending the VMAs as an artist is all about inspiration, at least for me it is. Being there in the flesh versus just watching it on TV is far more impactful. It's like I can see myself up there on that stage performing or even becoming nominated doing what I do best. I'm here, I'm seeing it in real-time. It's not far away and we're in New Jersey. This is where I'm from, this is my

hometown. It doesn't get more tangible than that. It was equally amazing watching Nicki Minaj perform and do her thang knowing she came up in a city near me; The development of Jack Harlow's career, meeting artists who I could see myself collaborating with shortly, it was a vibe!" — Tribe Mark [Interview with Lady Diviniti]

"Speaking of collaborations who did you meet that you could see yourself working with shortly?" — Lady D. "Well I met plenty of amazing artists but I'd have to say it's between Lil Nas X or Glorilla Pimp. I'm a fan of both but Glorilla and her manager both gave me some lasting words of encouragement by acknowledging me as an artist. To sum it up they told me to keep doing my thing and they see me which translated as I gotta be doing something right and I'm up next!" — Tribe Mark

What's next for Tribe Mark? According to Big Indy News; the New Jersey artist is gearing up for his next international tour, hitting up at least 3 continents, and completing new music.
