In pursuit of clinical excellence, the doctor is board-certified in internal medicine by the American Board of Internal Medicine (ABIM). The ABIM is a physician-led, non-profit, independent evaluation organization driven by doctors who want to achieve higher standards for better care in a rapidly changing world.

Hospital medicine is a medical specialty that exists in some countries as a branch of internal or family medicine, dealing with the care of acutely ill hospitalized patients. The primary focus is caring for hospitalized patients and co-management with other specialties. Hospitalists take an active part in medical care and ensure a safe discharge for the patients they take care of. They are being increasingly involved in administrative roles, given their expertise and collaboration with various teams in the hospital.
