

A New Approach to Saving Endangered Whales Appeals Straight to the Hearts of Children

Narragansett, Rhode Island Oct 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - The Rhode Island author of the Twisted Orca Book Series is appealing to a new group of people to help endangered whales from going extinct...children!

Twisted Orca books deliver positive messages about sea animals through what The Bay Magazine calls “adorably lovable characters”.

I am 99... A Southern Resident Story, the latest book in the children's series, invites kids from all over the world to join a young girl's mission to save the endangered orcas she loves so much. Will there be 99 Southern Resident Orcas again? Will something even better happen?

Twisted Orca Author Keri Newman is a Marine Naturalist and whale enthusiast. She has written and spoken on many ocean topics. By providing children with positive messages and memorable characters, she strives to encourage a love of marine conservation at a very young age.

“While the goal of all my books is to introduce kids to the magic of all ocean life, my passion is protecting endangered whales.

For that reason, activity kits teaching children about endangered whales such as **Southern Resident Orcas** and **North Atlantic Right Whales** are also available at no charge for families and teachers online at [Twistedorca.com](https://www.twistedorca.com).”

The entire Twisted Orca Book Series is available on [Amazon.com](https://www.amazon.com) and book retailers worldwide. Wholesale copies are available for resale.
