

CloudFunnels & CourseFunnels Recognized As High Performer By G2 Fall 2022 Reports

Teknikforce's budget-friendly & feature-rich tools have started winning the hearts and minds of customers which is clearly visible in G2 Fall reports

Sharjah, United Arab Emirates Oct 29, 2022 ([IssueWire.com](https://www.issuewire.com)) - Teknikforce Ventures LLC is thrilled to announce that G2 judged two of its best products- CloudFunnels & CourseFunnels as High Performers in the Fall 2022 reports.

Products in G2's High Performer quadrant have high customer satisfaction scores compared to the rest of the categories. CloudFunnels & CourseFunnels are two different products having separate customer bases.

Being a global internet marketing company, Teknikforce aims to create innovative & feature-rich digital marketing tools that can help small businesses grow exponentially even at a low budget. With this aim, it created CloudFunnels which is an all-in-one platform that builds effective sales funnels, landing pages, lead pages, membership sites, etc without any coding, and CourseFunnels, which is a self-hosted online training platform that turns courses into lucrative sales funnels with its various in-built marketing features.

G2 is the world's leading aggregator of business tools and software products targeted toward businesses. Their quarterly ratings are one of the most trusted parameters of a product's performance in the market.

The Fall 2022 release of G2's reports ranked CloudFunnels as follows:

- 1) High Performer in the Grid® report for Landing Page Builders category | Fall 2022
- 2) High Performer in the Small Business Grid® report for Landing Page Builders category | Fall 2022
- 3) Easy To Do Business With in the Relationship Index for Landing Page Builders category | Fall 2022
- 4) Easy To Do Business With Small Business in the Relationship Index for Landing Page Builders category | Fall 2022

The Fall 2022 release of G2's reports ranked CourseFunnels as follows:

- 1) High Performer in the Grid® report for Online Learning Platform category | Fall 2022

Teknikforce will continue to collaborate with G2 for its other offerings. G2 badges are the result of product reviews from real software users. G2 compiles user data to determine which companies should receive badges for certain categories and this year it was Teknikforce's products.

Speaking about the achievement, Cyril M Gupta, the Founder of Teknikforce said "It's not surprising that our products have received the highest ratings in customer satisfaction. We set the standard by bringing in 24 / 6 live chat support and live technical support for every customer without any fees. That's why both CloudFunnels & CourseFunnels have seen rapid growth in adoption in the small business customers segment where support is most needed, and always lacking."

About Teknikforce Ventures LLC:
