

Dangbei Releases Dangbei U1, A UST Projector With Small Size

Albany, California Oct 24, 2022 ([Issuewire.com](https://www.issuewire.com)) - Dangbei, a hot smart projector brand, has released a UST laser projector [Dangbei U1](#).

Different from other heavy and big UST projectors on the market, Dangbei U1 has a small size and saves more space for you. Dangbei U1 measures only 21*21*7.28 cm, and you can even put it in your backpack.

The projector features matte black as the main color and brings an elegant and futuristic style. The fine workmanship brings soft and gentle touch. Dangbei U1 has won IAI Design Award and France NDA Design Award because of its unique design and fine craftsmanship.

It has a [projector throw ratio](#) of 0.23:1, which can project a giant screen within a short distance. In addition, the projector adopts ALPD laser display technology that features high brightness, long life, small size, low energy consumption, and good picture quality. See the difference between the laser projector and lamp projector in [Lamp vs LED vs Laser Projectors](#).

Dangbei U1 has a standard resolution of 1080P and has 1250 ANSI lumens, producing bright and sharp images for users. With a high contrast of 2,000:1, the projector delivers colorful and vivid images with rich details. In addition, it supports HDR and HLG, greatly enhancing image quality.

In terms of image adjustment, Dangbei U1 supports Auto keystone and autofocus, relieving you of tiring adjustment.

Regarding the system, the projector is powered by an Android system and provides a smooth and quick experience.

A power sound system is also vital for projectors. Dangbei U1 supports Dolby Audio and DTS HD, bringing powerful and pleasant sound.

In terms of connectivity, it has dual USB interfaces, an HDMI/eARC interface, a S/PDIF interface, and a LAN interface, fully satisfying daily use.

Dangbei U1 now has been released in the Chinese market.
