San Jose, California Oct 29, 2022 ([IssueWire.com](https://www.issuewire.com)) - DRS Softech is delighted to announce the launch of a new tool i.e., the DRS [IMAP to Office 365 Migration Tool](#) in its Cloud Migration category. The product offers a wide range of features to perform risk-free migration of IMAP email data into Office 365 and several other email clients and file formats.

DRS Softech is an established IT company based in India with offices in the USA, UK, and Australia known for its highly advanced and secured products that allow users to ease their daily IT needs. It has many categories to deal with the data. DRS Softech assists users in the field of data recovery, email management, cloud migration, database recovery, and PDF management. The DRS Softech is happy to announce a new addition i.e., DRS IMAP to Office 365 Migration Tool. The software helps users to migrate IMAP mailbox data items to Office 365, Gmail, Yahoo, AOL, Thunderbird, etc. Furthermore, the software offers you to migrate and save IMAP account data into PST, MSG, EML, EMLX, PDF, etc. file formats. It works well with all the MS Windows versions including Win 11.

Risk-Free Migration of IMAP emails to Office 365 and several email clients and file formats

DRS IMAP to Office 365 Migration Tool has been categorized with four different licenses to reach

individuals, mid-level organizations, and large enterprises to easily migrate IMAP emails to different other email clients and file formats. The tool is self-tested and bug-free and has a 99.9% success ratio in migrating IMAP mailbox data.

Some Prominent Features of DRS IMAP to Office 365 Migration Tool

DRS IMAP to Office 365 Migration Tool is a reliable and result-oriented software that can help you in migrating IMAP emails and their associated data items to Office 365 and various email clients. A few of its prominent features are:

- Swift and easy migration of IMAP emails to Office 365.
- Quick migration of IMAP emails to PST, MSG, EML, EMLX, PDF, MBOX, etc. file formats.
- Easily export IMAP emails to Gmail, Yahoo, Thunderbird, AOL, iCloud, GoDaddy, etc.
- Remove duplicate emails based on to, from, cc, subject, bcc, etc.
- A mail filter option is available to select emails for a specific time.
- Supports all MS Windows and Mac OS versions including Win 11.
- Comes with a demo version to evaluate the working of the software.
