

Energy Solutions got a new home

Galadari Energy Solutions announced the launch of its new website!

Dubai, United Arab Emirates Oct 14, 2022 ([Issuewire.com](https://www.issuewire.com)) - Galadari Energy Solutions announced the launch of its new website!

The new website was launched on October 10th, 2022 and it is available online at galadarienergy.com.

The website has been designed to offer a more efficient user experience, especially with the white and red colors, which represent cleanliness and purity and are aimed toward customers and potential customers. One of the key factors behind the design was an improved search facility which included the ability for users to search by both product name and model number.

The website also has a new ecosystem that enables users to easily inquire about several products online. The website is mobile-friendly and works on smartphones, tablets, and desktop computers.

The website was built to create a base for customers to refer to whenever they want to inquire about a product or its parts and related services, in addition to the unique user experience and ease of communication with the Galadari Energy Solutions team.

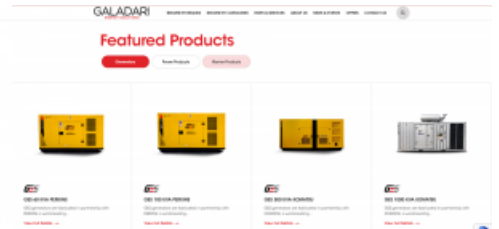

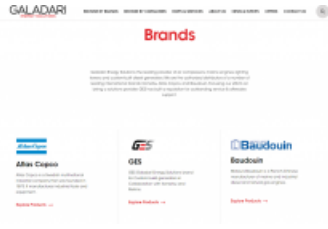

The new website aligns with the company's vision of expansion and developing tools to provide the customers with better services and offer the dealers an easy access management portal.

The website contains the company's products, catalog and energy solutions, spare parts and services outlets, current offers and deals, professional training, and related company details.

Galadari Energy solutions provide a wide range of energy products including power generators, air compressors, light towers, handheld breaking tools, and marine engines and generators from the

world's top brands including Atlas Copco, Baudouin, and their own brand GES.

Galadari Energy is committed to providing customers with quality products and energy solutions at competitive prices. With long experience in the field of energy production and distribution, they have built a reputation for excellence by providing reliable power solutions that meet all your needs.
