

Erik C. Eklund, OD, an Optometrist with Frameous Eyes

Get to know Optometrist Dr. Erik C. Eklund, who serves patients in Gainesville, Florida

New York City, New York Oct 12, 2022 ([IssueWire.com](https://www.issuewire.com)) - A board-certified optometrist, Dr. Eklund has been serving the Gainesville, Florida area since 2017 and has been involved in vision care since 2015. His company, Frameous Eyes, is committed to providing the best eye care experience by using the latest technology.

The doctor provides detailed eye examinations as well as addresses all questions and findings thoroughly and in patient-friendly terms. He specializes in contact lens fittings, annual eye exams, the treatment and management of eye disease, eye infections, and more.

After graduating with his undergraduate degree from the University of Central Florida in 2009, Dr. Eklund went on to earn his bachelor's degree in Vision Science / Health Sciences from Nova Southeastern University in 2013. Two years later, in 2015, he earned his Doctor of Optometry degree from the said establishment.

Licensed in Florida, he is a member of the Florida Optometric Association. When he is not at work, he enjoys spending time with family, and friends, riding his road bike, and learning new skills.

Optometry is a healthcare profession that involves examining the eyes and applicable visual systems for defects or abnormalities, as well as diagnosing and managing eye disease. Optometrists are healthcare professionals who provide primary eye care through comprehensive eye examinations to detect and treat various visual abnormalities and eye diseases. Being a regulated profession, an optometrist's scope of practice may differ depending on the location. Thus, disorders or diseases detected outside the treatment scope of optometry (i.e. those requiring certain surgical interventions) are referred out to relevant medical professionals for proper care, more commonly to ophthalmologists who are physicians that specialize in the tertiary medical and surgical care of the eye. Optometrists typically work closely together with other eye care professionals, such as ophthalmologists and opticians, to deliver quality and efficient eye care to the general public.
