Azusa, California Oct 28, 2022 ([IssueWire.com](https://www.issuewire.com)) - Experience the magical write-up with the immensely talented author **Weiqi Wang**. This writer is reaching out to a large number of listeners with his brilliant pieces of creations. This author is quite different from all the fictional writers. Most magic fantasy writers write books that are not relevant to science. But this author beautifully writes magic fantasy that is also intertwined with science. He has also been a scientist at Stanford University and thus he shares a good knowledge of science. He went to school at the university of oxford and got his Ph.D. degree. His different way of approach has made him unique and diverse in every aspect. His new book '[Code of Rainbow: Soaring Flame and the Dragon-transcending Magimal \(Book 1\)](#)' is an example of that. This excellent book has taken the level of magic fantast to another dimension.

He has subtly blended science and magic which is extremely interesting. This book is for teenagers and has every trait to make it appealing to the readers. This prolific writer has showcased his talent by creating books like this. The approaching story of it is completely different. All of his books are different from each other and that is what makes them even more pleasing. The concept of the book is magic but it is not traditional magic. From this book, one can understand the magic of this planet that everyone is surrounded by.

Weiqi Wang is an established author among everyone. This author has the talent to make the writing relatable and easy-to-understand, so his young readers can easily indulge themselves in his creations. Apart from this book '**Code of Rainbow: Soaring Flame and the Dragon-transcending Magimal (Book 1)**' he has given two other books, those are 'Code of Rainbow: Ancient Barons and the Returned Assassin (Book 2)' and 'Code of Rainbow: Legends of Azure and the Masked Planet (Book 3)'. These books contain a completely new kind of magic fantasy that no one has ever experienced. All his creations are available on Amazon, so visit the platform and get the books from this website.
