

Get the best mobile attendance app with face Recognition from Thumbtag

Thumbtag is the platform that has started the mobile attendance tracking system for all the workers at the construction site.

Chennai, Tamil Nadu Oct 31, 2022 ([Issuewire.com](https://www.issuewire.com)) - (<https://thumbtag.in/>) We all live in a world where the use of technology is very important. From the management of resources to even marking attendance, everything is being done using the latest technology. Many companies have come up with the software of [mobile attendance apps with face recognition](#) that makes it very favourable to mark attendance according to the requirement.

This facial recognition attendance system will help in incorporating facial recognition technology that can help in verifying the worker at the construction place. Not only this, the attendance will be marked only when the face of the worker is verified that too at the construction site. The use of this technology has helped a lot of people who are into construction work to save a lot of time. Earlier management team used to keep a supervisor for this work. Now all the attendance work is done by software, and there is no such burden on any person.

There is proper efficiency in recording the data for the workers available at the construction site as soon as the worker opens up the software on their phone and their face gets verified.

Automatically their attendance is marked. There will not be any sort of problem in managing the data regarding the workforce presence.

Worker attendance tracking can be quite a hectic job, as the payout at the end of the month needs to be calculated. With the help of the system, keeping track of the worker's attendance at the site is very easy. All the time, on which the attendance is marked, everything will be clearly stated. There will be no such extra workload on the management team.

It is seen that the use of the latest technology always helps in saving a lot of money at once. You can easily keep all the records in the real-time face attendance software. This will surely help you to take the best advantage of the system that too in the long run.

About the company: (<https://thumbtag.in/>) Thumbtag Pvt. Ltd. is the brainchild of NTrust CEO Srikanth Ramachandran. This platform has brought in some technological changes that have helped it grow to the best possible level. All the manual processing is no longer in use as now a phone with the software in it can help in providing the best information about almost everything. The research and development team is putting in all the right efforts to bring the best services to all the clients.
