

iAutoeyes Lauch Smart REAR VIEW CAMERA

High Resolution under Low Light Conditions. Hushan had a new product launch on October 10, 2022 at 9 am. The new iAutoeyes rear view camera were special for the Toyota Camry, RAV4, Highlander and Sienna.

Los Angeles, California Nov 1, 2022 ([IssueWire.com](https://www.issuewire.com)) - Hushan launched new iAutoeyes smart rear camera modules, which are very high resolution and high saturation under ultra-low light conditions. iAutoeyes is an auto-part brand founded in 2021. Our parking sensor detection testing follows ISO17386.

In fact, the protection of this safety is integral to the founding principles. We partner with Tier 1 suppliers such as Nidec Lens and ON Semiconductor, and we ensure the latest technology for superior quality. Our vision builds toward a safer and more convenient life for people, every single day. To streamline this vision, our goal is to provide high-quality and competitively priced automobile products in the aftermarket and OE replacement.

We will lead as a world-class brand of pioneering automotive electronic products.

HUSHAN Autoparts Inc. demonstrates compliance with federal motor vehicle safety

standards by earning the first CAPA Certified Products for automotive rearview cameras

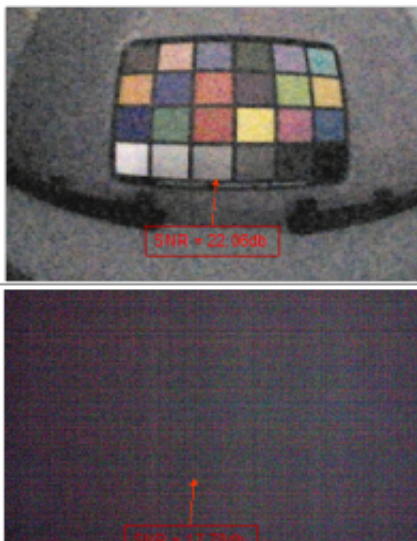

HUSHAN Autoparts Inc. (Taiwan) is the first manufacturer to earn CAPA Certification for motor vehicle rearview cameras. HUSHAN demonstrates that their products can be mounted appropriately and have been independently tested and evaluated to comply with Federal Motor Vehicle Safety Standard 111 (FMVSS 111): Vehicle Rearview Image Field of View and Quality Measurement. The evaluation also includes field-of-view and response-time testing.
