Plastic surgery is a surgical specialty involving the restoration, reconstruction, or alteration of the human body. It can be divided into two main categories - reconstructive surgery and cosmetic surgery. A plastic surgeon's primary responsibility is performing surgical and non-surgical procedures, and they use a variety of reparative and reconstructive techniques to get the job done.

Away from his practice, Dr. Berman is an avid cyclist and sports enthusiast and enjoys skiing, golf, baseball, and hockey. He regularly cycles 120-150 miles per week and participates in cycling charity events like the Multiple Sclerosis 200 where he is a club 151 member (top 151 fundraisers for the past three years). He also plays in many charity golf events to benefit such causes as the American Cancer Society, AIDS, and the Ileitis / Colitis Foundation.

In addition, he is the president of the Boca Raton Bicycle Club, and is also an active sponsor of the Delray Twilight Bicycle Festival. Knowing firsthand that cycling can be a very dangerous sport, he advocates Bicycle Safety and the importance of riding with a helmet. He donated 500 children's bicycle helmets during the Bicycle festival that were distributed at the YMCAs at Boynton Beach and Boca Raton. He also taught schoolchildren the importance of riding with a helmet. For relaxation, he loves to play the piano.
