Lagos, Nigeria Oct 15, 2022 ([Issuewire.com](https://www.issuewire.com)) - According to announcements released by Legends Motivation Inc., the launch of InsiderBLM ([Insiderblm.com](https://insiderblm.com)) is an avenue to help young entrepreneurs and new small businesses get featured. This program is designed to support young writers, entrepreneurs, and small businesses through the process of creating awareness about their new

products and services.

According to sources Legends Motivation has been working on creating a digital presence for entrepreneurs over the years which has proved less progressive due to the low workforce. The website will be receiving various stories from individuals and companies in order to build their early-stage goals. Various startup companies and entrepreneurs are now eligible to register their accounts on the website, so as to participate in the opening of this new and innovative movement.

In the words of Tobi Oluwatoyin, the founder of Legends Motivation, he said “We’ve created an avenue where the number one goal is helping small businesses and young entrepreneurs create awareness and succeed. While many entrepreneurs share our passion, bringing a new idea to the market is not easy. Especially while we’re still starting off. We won’t stop at just this. Insider by Legends Motivation will serve entrepreneurs in a unique way – through a combination of mentoring, insider access, and real funding, all backed by the will and power of the leading small business marketing partner.”

Reports also claim that just like other insiders, Legends Motivation is dedicated to helping young entrepreneurs scale their small businesses. Young entrepreneurs will have access to mentoring from experts in their respective fields, as well as insight from fellow esteemed members of the platform.

In addition to getting featured, the participants will also receive dedicated access to create a personal and business portfolio while getting featured in Legends Motivation Magazine.

Tobi further added, “We couldn’t be more excited to get to work with our first class of young entrepreneurs. Innovation to hasten our young entrepreneur’s success is at the heart of everything we do at Legends Motivation and was the driving force behind our decision to launch InsiderBLM. The space will provide our internal team of innovators and developers with a place to collaborate, test ideas, and create new value for our customers. Working side by side, we’re confident that our team and every other entrepreneur will learn from each other and collaborate to drive innovation that benefits small businesses and young entrepreneurs everywhere.”
