

MailsDaddy New AOL Backup Tool

New Delhi, Delhi Oct 8, 2022 ([IssueWire.com](https://www.IssueWire.com)) - Recently, MailsDaddy launched a new product, "MailsDaddy AOL Backup Tool". This tool quickly backs up all your AOL Emails without tempering original content. The application is capable of backing up AOL email in multiple formats like PST, MBOX, EML, MSG, and HTML.

The user interface of this solution is so simple and quick that any user can use it without any technical expertises. The best thing about this latest tool is that it is able to work smoothly in all Windows like Windows 11, 10, 8, 7, XP, Vista, etc.

Most users face problems while they back up AOL emails. To resolve this type of error, Mailsdaddy developed this AOL Backup Tool. With this solution, users can take a backup AOL email database with all attachments. The software maintains all internal folder hierarchies, text formatting, and email properties.

This tool has many versatile features:

- AOL emails can be quickly transferred to Outlook PST MBOX, EML, MSG, and HTML formats using this professional tool.
- This excellent solution has the ability to back up AOL emails without any interruption.
- The application enables users to select and export single and multiple mailboxes (inbox /trash /sent items etc.) into pst and other formats.
- This reliable tool allows users to approach AOL cloud data to thunderbird, Windows Live Mail, and Outlook edition.
- In this utility, a Date filter option is available that facilitated users to back up emails between two selected dates.
- You can successfully operate this software on all Windows OS systems such as 8/10/11/ XP etc.

Free demo version:

You can test its functional features by downloading the demo version of this software. The free trial version of this software can backup up to 20 email items per mailbox. If you are satisfied with this software, you can buy the appropriate license according to your requirements.
