New Delhi, Delhi Oct 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - New Delhi-based real estate developer TARC Ltd launched its luxury residential project, TARC Tripundra recently. Nestled amidst the scenic environs of Pushpanjali Farms on the main Bijwasan Road in New Delhi. Conveniently located within easy driving distance of commercial and social hubs across Delhi-NCR and located at an equidistant from Delhi and Gurugram, [TARC Tripundra](#) enjoys seamless connectivity to the Indira Gandhi International Airport and Aerocity.

The premium project offers 3-4-BHK homes priced Rs 4.5 crore onwards. The gated township stands out for its enormous Delhi green view, 7D security, indoor heated pool, terrace area with an open-air theatre, star-view facility, and a meditation deck, among other facilities.

Amar Sarin, the CEO and managing director, of TARC Ltd, said, “TARC Tripundra has been launched keeping in mind the aspirations of homebuyers to live within the capital without worrying about the city’s hustle and bustle. Accordingly, our emphasis is on creating an upscale luxurious residential enclave that will be akin to an oasis within the bustling city. Moreover, since most of the flats face open areas on two or three sides, there is ample provision for the entry of natural light, fresh air, and cross-ventilation across every apartment. The 6-feet-plus wide balconies and sundeck options also augment the charm of TARC Tripundra.”

[TARC Tripundra](#) will provide an electric vehicle (EV)-charging facility, water conservation, and rainwater

harvesting systems, solar panels, air filtration, and waste management systems, to mention a few. Besides, it is backed by multiple smart technologies, community apps, and Wi-Fi in common areas to keep residents connected 24x7.

Sarin adds, "Significantly, only 190 families will live in this New Delhi project, ensuring the advantage of community living without the feeling of being constricted. A mini theatre and open-air theatre on the terrace are an offering for movie buffs who value their privacy and prefer to avoid overcrowded public areas. Naturally, TARC Tripundra presents an ideal opportunity for well-heeled cohorts seeking a better home, senior citizens looking for a safe, green haven within the city precincts, or non-resident Indians (NRIs) wishing to return to their roots without sacrificing the comforts of modern living. Even investors will be delighted as our luxury New Delhi-based project is poised to provide robust returns in the days ahead by emerging as a hot destination for both homeowners and investors."
