One of the successful forex trading experts Tony Deoleo is proud to announce his second book elaborating on the momentum within the forex market with worldwide readers. The book "The Engulfing Candle Strategy! The Most Effective Price Action Trading Strategy" allows All traders of the Forex market to learn how they can leap into this exciting world of trading. The best-selling author Tony Deoleo has always felt a void in the Forex trading market where people know more about currency conversions and making a profit. But as the market is volatile, they are afraid to step forward. And that's where Tony wants to share his experiences and make the investors feel carefree.

A remark often knocked on the door is - "With the trend isolated and a retreat occurring, wait for the engulfing candle technique trade signal". According to this trading expert, it is hard to keep up with the flow without knowing the characteristics of the foreign exchange market. Well, after the successful release of his first book, Tony Deoleo has engulfed his ideas and experiences while releasing this second masterpiece where he is sure to cover more responses.
