

UK-based Chemical Manufacturer "Fisher Research" Chooses BatchMaster Web as their Preferred ERP Partner

Enfield, London Oct 17, 2022 ([Issuewire.com](https://www.issuewire.com)) - Established in 1988, **Fisher Research** has made commendable progress in the cleaning and maintenance chemical manufacturing business. But as operations expanded, they outgrew their existing business management systems. Therefore, Fisher Research entered the ERP market looking for a [chemical ERP solution](#) that could cater to their need for quick innovation, organized production, consistent quality, up-to-date compliance, and accurate

finance.

While using Access Accounting Software, the managing director **Mr. Iwan Fisher** realised the need for an integrated business solution. And after a long and diligent scouting process, Fisher Research has now announced the selection of BatchMaster Web as their preferred ERP for the holding company **Fisher Darville Pvt. Ltd.** along with its 3 subsidiaries. By implementing BatchMaster Web on the SaaS model, the company will benefit from its formulation, procurement, inventory, production, quality, sales, and finance modules.

Along with having remote capabilities, **BatchMaster [Web ERP](#)** will aid the company's product development process and simplify sampling management. Fisher Research also opted for **[BatchMaster Finance](#)** with automation for VAT returns, to be compliant with HMRC. The chemical manufacturing company will also be able to achieve faster time-to-market for new product offerings with the state-of-the-art formulation module pioneered by BatchMaster.

"We are delighted to have Fisher Research on board. It will be a pleasure to provide industry-specific business solutions to help them achieve operational excellence and incremental growth. We will ensure complete back-end support and continue to serve them in our best capacity", said **Mr. Sanjay Panjwani**, Managing Director, BatchMaster Software.

About Fisher Research

Since 1931, Fisher has been the most trusted name in metal detection. Whether you are locating buried utilities, in need of security walk-through metal detectors, or want to find long-buried treasures, Fisher technology will find it fast. From analog to digital, in single or multiple frequencies, Fisher quality and innovation are your reliable source for underground locating equipment.
