1800GOFRUIT.com Announces Use of Artificial Intelligence and Robots to Increase Production

Gourmet gift baskets company 1800GOFRUIT.com announces their decision to use artificial intelligence (AI) and robots in their production process, in order to meet growing demand and improve the quality of service. "Our team is dedicated to providing the best possible experience for our clients, and this new addition will help us do just that," says the CEO of 1800GOFRUIT.com, Inc., George Karatzas. With this change, the company looks forward not only to increased productivity but also to improved customer satisfaction rates across the board as a result of faster delivery times, greater accuracy, and more consistent product quality control measures put into place thanks to AI implementation. About 1800GOFRUIT: Established in 2017, 1800GOFRUIT is a leading online retailer specializing in gourmet gift baskets and fruit baskets made with only the freshest ingredients available. The company has been rapidly growing since its inception due to its commitment to excellence in both product quality and customer service; now employs over 50 people nationwide with plans for continued expansion into new markets throughout 2023-2024.
