

## Book hotels and flights with the Blockchain Travel Site XcelTrip

**Gurgaon, Haryana Nov 16, 2022 ([Issuewire.com](https://www.issuewire.com))** - A **Blockchain** is a digitally encrypted ledger where transactions between different parties are stored through smart contracts. It is a decentralized system supporting trustworthy transactions. Blockchain records entries in blocks that are immutable and permanent. So, data is safe, transparent, reliable, and securely accessible.

The use of blockchain is not limited to the crypto world. **Blockchain Travel site** is used in different industries, including the hospitality industry. The blockchain Travel site has revolutionized travel and has the potential to disrupt the way business is traditionally done.

Blockchain Travel Site helps to connect travelers directly with service providers through smart contracts. The different travel intermediaries involved in the travel business make travel 20–25% expensive through the commission they take. Blockchain Travel Site helps substitute intermediaries, making travel cost-effective without commissions. It will eventually result in lower prices for travel and payments. Blockchain Travel Site thus enables a fair travel system with mutual benefits for travelers and service providers.

**XcelTrip** is a Blockchain Travel Site that provides clients with direct access to travel service providers and gives travelers a wide range of pricing and luxury options for their trips.

**XcelTrip** is a Blockchain travel site that accepts Bitcoin as a payment method. The user interface is straightforward and engaging to use. All major cryptocurrencies, including Bitcoin, Ethereum, Binance,

Polygon, XLD, XDC, Verge, Litecoin, Dash, Bitcoin Cash, and Tether, are accepted by XcelTrip. The platform has received positive reviewer feedback and is growing in popularity among travelers.

**XcelTrip**, a **Blockchain Travel Site**, allows you to search for flights and hotels using any cryptocurrency. It has become a go-to platform for cryptocurrency newcomers, allowing them to get their first taste of Blockchain Travel Sites. Users can use the Blockchain Travel Site, XcelTrip, to search for flight and hotel options worldwide. The website dispels the myth that Blockchain is only useful in cryptocurrency.

**XcelTrip** is an IATA-certified platform trusted by 6,50,000+ users. You can book over 4.5 Million+ hotels and 450+ airlines and enjoy faster settlements on bookings. XcelTrip provides transparent rates, endless choices, and a dedicated support network to aid its users. Increase your crypto use cases and rent a vehicle in over 70 countries with XcelTrip.

In terms of the advantages, **Blockchain travel site**, XcelTrip can offer within the travel industry, stability and security rank very highly.
