

Fetching Dreams and Making It a Reality: Introducing the Indie Filmmaker Sonia W Kohli

London, United Kingdom Nov 2, 2022 ([IssueWire.com](https://www.issuewire.com)) - Creative Arts have no boundaries and will find artists no matter how difficult or unknown the road is. For centuries examples of people from other professions joining the entertainment business and getting big have been around. Sonia W Kohli is undoubtedly the newest addition to the set of examples. A banker by profession, she has already done her first movie and founded a production company. This indie filmmaker is up to do good and tell creative stories and this is the primary aim of finding The Kunishka Productions Ltd., Sonia's production company in 2020.

Going from professional banker to creative filmmaker, the journey has been interesting and full of ups and downs. This inspired her to engage more talents like her in telling thought-provoking stories. Her first film, "Bond - In Isolation" is a fine example of a well-constructed and executed script. This project was also selected by the Lift Off Session film festival and is now available on leading OTT platforms. This success has inspired Sonia to proceed further and she has produced a second film which is currently in post-production.

With the pile of other interesting stories, Sonia is currently ready for her next film to come out at the beginning of next year which keeps the audience on edge.
