

Get to know Dentist Dr. Maggie Silvasi Evans, who serves patients in Royal Oak, Michigan.

Maggie Silvasi Evans, D.D.S.

New York City, New York Nov 30, 2022 ([Issuewire.com](https://www.issuewire.com)) - Dr. Evans is a qualified family, cosmetic, and implant dentist practicing in Royal Oak, Michigan. She works alongside two other general dentists - Dr. David Zamler and Dr. Kristen Ciccarelli.

“Our mission is to cultivate healthy smiles with longevity in a safe and comfortable environment. We provide comprehensive care and ensure we nurture not just dental health, but overall health as well. A healthy mouth means a healthy body; the oral-systemic link has been proven throughout the literature. Patient education is of the utmost importance in our office. We want you to understand why dental treatments need to be done, and what you can do at home to ensure your smile lasts a lifetime. What we do between your nose and your chin is just as important as what we do between your ears. Education is key to prevention. We are very proud of our practice and know you will find us both unique and pleasant to work with.”

A Michigan native, Dr. Maggie Silvasi Evans completed her undergraduate degree at Michigan State University in 2011, while playing on the club lacrosse team. She then earned her Doctor of Dental Surgery degree from the University of Michigan School of Dentistry in 2015. Upon graduation, she completed an Advanced Education in General Dentistry through the East Carolina University School of Dental Medicine in North Carolina. She then returned home to Michigan and joined the practice here in Royal Oak. Dr. Evans loves all aspects of dentistry but has special interests in cosmetic dentistry, surgical dentistry, dental implants, and Invisalign. In order to pursue her interest in implant dentistry, she completed a 10-month comprehensive program through the American Academy of Implant Dentistry. She is an active member of the Spear Study Club to help stay current in the field of dentistry. Dr. Evans is committed to continuing education in order to treat patients with the most up-to-date technology and procedures. In fact, Dr. Evans earned her fellowship in the Academy of General Dentistry (FAGD) in 2022, something that only 6% of dentists achieve throughout their careers. She is also certified in Botulinum Toxin (Botox) and Dermal Fillers through the American Academy of Facial Esthetics.

In her spare time, Dr. Evans enjoys hiking and traveling the world with her husband, Ace. In 2018 they summited Mt. Kilimanjaro! She also enjoys road biking, going to concerts, and spending time with friends and family.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.
